Professional Summary

Information Science and Engineering graduate with hands-on experience in Java, React, Spring Boot, Node.js, and the MERN stack. Built full-stack web applications and completed a software development internship. Seeking a Software Engineer or Full-Stack Developer role.

Education

Don Bosco Institute of Technology Bangalore, India
Bachelor of Engineering in Information Science and Engineering, CGPA: 8.3 *2022 – 2026*

Skills

Languages: Java, JavaScript
Frontend: React, HTML5, CSS3, Bootstrap
Backend: Spring Boot, Node.js, Express.js
Databases: MongoDB, MySQL
Tools: Git, GitHub, VS Code
Concepts: OOP, DSA, Operating Systems, REST APIs

Projects

Real Time MERN Chat App with Gemini AI Integration *3 Months*
- Built a full-stack chat application using **MongoDB**, **Express.js**, **React.js**, and **Node.js** with **Socket.io**.
- Integrated **Gemini AI API** to enable intelligent AI-assisted conversations within chat sessions.
- Optimized backend queries and database indexing to improve **API** performance..
- Enhanced user engagement through real-time messaging and smart AI responses.

Post Management Web Application *4 Months*
- Built a React.js web application that retrieves and displays post data from the **JSONPlaceholder REST API.**
- Developed dynamic post deletion functionality with real-time UI updates without page reloads.
- Created a responsive user interface using **React.js, HTML, CSS, and Bootstrap..**
- Enhanced application usability through efficient data handling and component-based architecture.

NewsSphere Website *3 Months*
- Developed a full-stack news platform using **React.js, Node.js, Express, MongoDB, Redux, and CSS3**.
- Optimized backend queries and caching mechanisms to improve **API** performance.
- Developed responsive **React UI** components for an improved user experience.
- Implemented global state management using **Redux** for efficient data flow across components.

Experience

Edutainer 4 Months
Junior Software Developer
- Developed responsive **React UI** components to improve usability and user experience.
- Integrated **REST APIs** with React frontend to deliver dynamic and real-time data updates.
- Built and deployed a **full-stack** web application using **React.js** and **Node.js** with optimized application performance.
- Implemented **Redux** for efficient state management in a mobile-first application.
- Contributed to end-to-end feature development including UI design, backend API integration, and testing.

Achievements

Completed **Data Structures and Algorithms** certification from Infosys Springboard.

Earned **Artificial Intelligence Fundamentals** certification from IBM.

Completed **Project Management Fundamentals** certification from IBM.

Completed **Job Application Essentials** certification from IBM.
